EDUCATION

JAIN UNIVERSITY, Bangalore, IN Nov 2021- Nov 2025
Bachelor of Technology in Computer Science & Engineering GPA: 9.12/10

Coursework: Object-Oriented Programming, Docker, AWS, Computer Networks, Operating System, Database Management Systems

EXPERIENCE

Software Developer Intern 12/2024-05/2025
ECSC Groups

- Developed reusable React components, improving UI consistency and reducing repeated code across the project
- Optimized backend queries reducing API response time by 20–25% and handled API failures and loading states so the ui kept working properly
- Identified and fixed bugs reported during testing and actively contributed to features from requirement to deployment

Front-End Developer Intern 07/2023-08/2023
Unicom Portal

- Improved frontend performance using lazy loading and pagination reducing page load time by 30% and fixed UI issues ensuring a smooth experience for users
- Implemented user authentication with form validation improving security and user experience.

PROJECTS

MeetNote – Real-time Meeting Platform with Live Transcript and Summaries | Next.js, Node.js, Redis, PostgreSQL, WebSockets, Python(FastAPI)

- A real-time meeting platform with live captions, chat and post-meeting summaries enabling users to create and join meetings
- Developed the backend with FastAPI, Redis, and WebSockets to handle live transcripts, chat and meeting data in real time
- Worked on a separate Node.js service to convert meeting transcripts into structured summaries and export them as PDF or Word files

Link - https://github.com/RajeevBaniya/MeetNote

Hotel Booking System | MERN Stack, Redis https://bookotel.vercel.app

- A hotel booking platform with search, filtering, and room reservations
- Integrated secure payments and automated email notifications for booking confirmations
- Developed an admin dashboard to manage properties, room availability and bookings

DemoVideo - https://shorturl.at/pMKqa

Finance-Tracker | Next.js, Tailwind CSS, Clerk, MongoDB https://fintrack-apps.vercel.app

- A finance tracker Webapp to manage budgets, track expenses and visualize spending patterns with interactive charts
- Implemented secure authentication with Clerk and protected routes across the platform

DemoVideo - https://shorturl.at/G1iwV

SKILLS

Languages: JavaScript, Python, HTML5, CSS3
Frameworks & Libraries: React.js, Node.js, Express.js, Tailwind CSS, WebSocket
Databases & Tools: MongoDB, MySQL, PostgreSQL, Redis, AWS, Docker, Firebase, Supabase, Git, Vite
