EDUCATION

JAIN UNIVERSITY

Bangalore, IN

Bachelor of Technology in Computer Science & Engineering
(Specialization in Software Engineering)

2021-2025

GPA - 9.12

EXPERIENCE

Software Developer Intern

12/2024-05/2025

ECSC Group

- Developed reusable React UI components improving design consistency and development speed
- Implemented and tested Api calls using postman and optimized backend queries in NodeJS reducing response time by 25%
- Collaborated with team on feature integration and design discussions gaining practical experience.

Front-End Developer Intern

07/2023-08/2023

Unicom Portal

- Created login and signup form with proper form validation and error handling.
- Improved frontend performance using lazy loading and pagination reducing page load time by 30%
- Coordinated with backend developers to implement and deliver new features

SKILLS

Languages & Databases: JavaScript, Java, HTML, CSS, SQL (MYSQL), MongoDB

Frameworks: React.js, Node.js, Tailwind CSS, Material UI

Cloud Platforms: AWS (EC2, VPC, S3, Route53, IAM, CloudWatch, Lambda, CloudFront)

Developer Tools & Platforms: Git, Docker, Clerk, Firebase, OAuth 2.0, Postman, Vercel, Vite

Soft Skills: Problem Solving, Communication, Decision Making, Troubleshooting

PROJECTS

Travelai - Travel Planner | *React.js, Tailwind CSS, Firebase, Shadcn UI, Gemini AI API.*

- Built Ai-powered itinerary generator using **Gemini** and places api with **firestore** for secure storage
- Google **OAuth** authentication and responsive Ui with react, tailwind CSS and framer motion

BookOtel - Hotel Booking System | *MERN Stack*

- Allows users to find hotels in different locations according to their preferences
- Secure payment system and Booking management with email notifications for hotel reservations
- Built a dashboard for admin/owners to manage properties, room availability and booking records.

FinTrack - Finance-Tracker | *Next.js, Tailwind CSS, Clerk, MongoDB*

- Built a finance tracker web app to manage budgets, track expenses and visualize spending patterns
- Secure authentication using **Clerk** and multi-currency support for safe and flexible user accounts
- Added real-time updates and interactive charts so users can quickly see their spending and budgets

SummerEase - Meeting Notes Summarizer | *React, Node.js, TailwindCSS, Supabase(auth/DB), Groq API*

- Built a meeting notes summarizer app using **Supabase** for authentication and customizable summaries
- Integrated **Groq API** to generate summaries and added email sharing with **Nodemailer** for team use.

CERTIFICATIONS & COURSES

Full-Stack Web Development Course | AWS Certified Solution Architect | React.js (Coursera)
