CERTIFICATIONS & COURSES

Full-Stack Web Development Course

DevOps Foundations Course

AWS Certified Solutions Architect (Coursera)

React.js (Coursera)

PROJECTS

Travel AI - An AI-based Travel Planner | React.js, Tailwind CSS, Firebase, Shadcn UI & Gemini AI API.

- Developed an AI-based travel planning app using React, Firebase, and Gemini AI API.
- Integrated Google OAuth for secure login and Fire store for managing travel plans.
- Built a responsive, modern UI using Tailwind CSS, Shadcn UI, and React Router v7.

Note AI - An AI Note-Taking App | Next.js, Tailwind CSS, Clerk (Authentication), Convex, Gemini API & Lang Chain

- Built Next.js application with Clerk authentication, Tailwind CSS, and Convex for serverless database management
- Developed PDF processing system using Google's Gemini AI API and Lang Chain for intelligent content extraction
- Built a secure file system with limits on uploads and user access controls

FinTrack - Finance-Tracker | Next.js, Tailwind CSS, Express.js, Clerk & MongoDB

- Built a full-stack finance tracking app using Next.js, Express.js, Clerk for login/signup and MongoDB
- Added budget tracking features with live updates and easy-to-understand charts.
- Implemented responsive dashboard using reusable components with Shadcnui for better user experience.
